Abraham Lincoln	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Is this the ballot you want sent to  
your e-mail address for you to print?

**Yes. Send it.**

**No. I want to make some  
changes.**

### Set Up Your Ballot Scanning

If there is an Internet connection, we recommend that you enable scanning on one device for about every 200 ballots in your election. If there is no Internet connection, then only this phone can scan and tabulate your ballots.

You will need to create a short username and password for each scanning device in addition to the one you are using now. You can set up as many or as few as you wish. Access to the device's camera will need to be allowed.

How many phones (in addition to the device you are using now) do you want to be able to scan ballots for your election? \_\_\_\_
